

EXCERPT FROM D/FBIS DAILY LOG - 16 April 1982

1. I called [] PMCD, to discuss a number of items related to foreign nationals:

a. Regarding the transfer of a position from FBIS to PMCD to handle FN matters, I told [] that our preference is that D/Personnel request his own position from the Comptroller. Failing that, we would recommend a contractor, e.g. [] be hired, possibly on part-time. [] was not enthusiastic about either option. I told him that if neither option worked we would provide a position but only temporarily so that Personnel could budget for a permanent position in the '84 program. (I had made the ADDS&T aware of all this earlier today.)

[] seems very satisfied with the offer of a temporary slot and agreed that one year would be appropriate. We could review at the end of a year. [] is to contact [] PMCD, to draft an agreement.

b. [] said that [] draft to State, advising them of the Agency's decision not to join the State FN system, was still under review. He confirmed that FBIS would see it first. But before the memo is sent, Jim Glerum wants [] to advise Velott of the decision by phone. This is because Personnel understands that Velott has been made aware of the decision indirectly by the consultants who had been under consideration to do a study of FBIS' FN structure. [] will let us know when he calls Velott.

c. [] accepted [] idea that a draft airgram be forwarded to State as an attachment to the memo Glerum will send. The airgram would advise the appropriate embassies of the decision. [] is to work this out with PMCD. (cc: C/Ops, SA/Ops, C/E&PS, C/AS, C/P&TB) (U/ATUO)
